SELECTED SYSTEM INFO

SG 4880 / customer fabric

Large format roller blinds with widths up to 450cm and drops up to 700cm

Quiet, heavy duty system

Patented Silent Gliss Quick Twist permits easy on-site adjustments of the headrail to minimise fabric roll off

Fixed wall switch, radio remote or app control

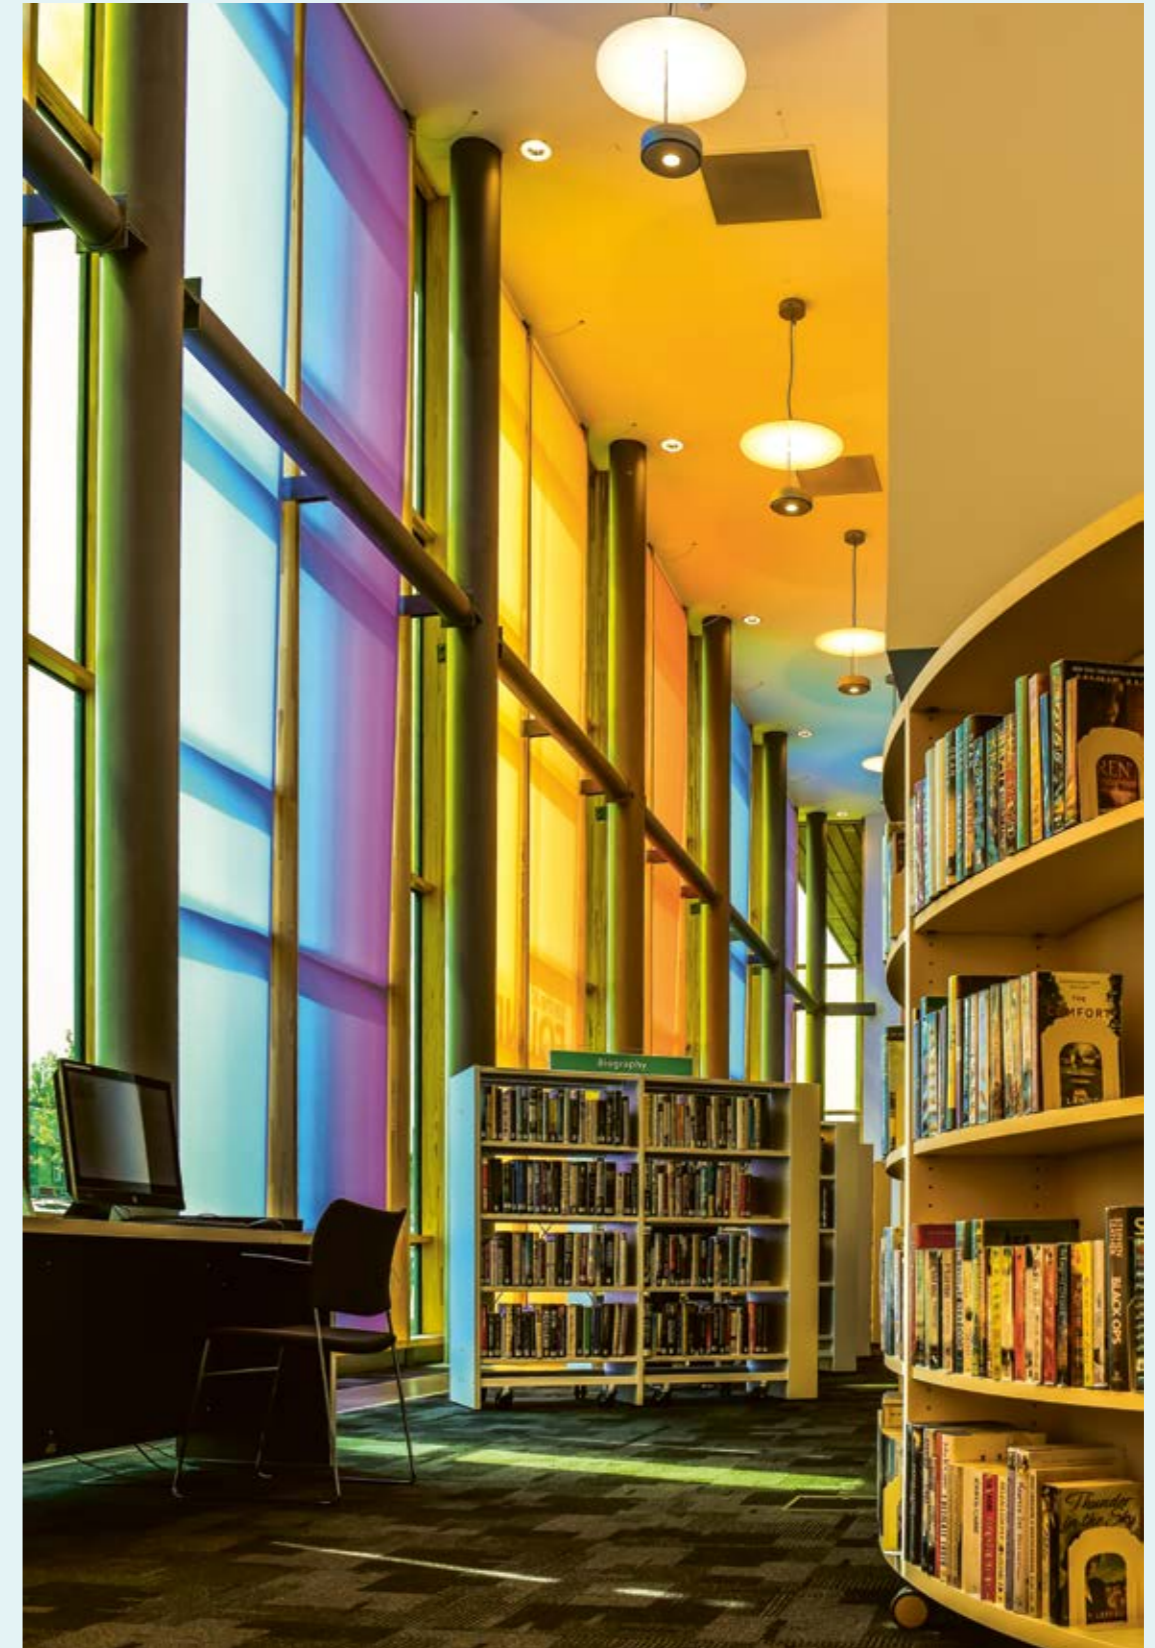

The Barrhead Foundry

The Barrhead Foundry in Glasgow is a Sports Centre which has undergone an extensive refurbishment. It provides a full range of fitness facilities including a pool but also offers learning, conference and training rooms.

This public space boasts floor to ceiling glazing which looks fantastic,

but required a robust and flexible shading solution. The SG 4880 roller blinds met the specification perfectly. Wide blinds with long drops were easily achieved with a system which can go up to 31.5m². The radio controls allow staff to adjust light levels easily throughout the long working day.
